

Online IQP register

The newly developed online Independently Qualified Persons (IQP) register is now available on the Auckland Council website.

Click [here](#) to access the online IQP register.

This will improve service for both internal and external customers by now being able to search for registered IQP persons when dealing with specified systems, i.e. emergency warning systems, sprinklers, lifts, backflow preventers and passive fire protection.

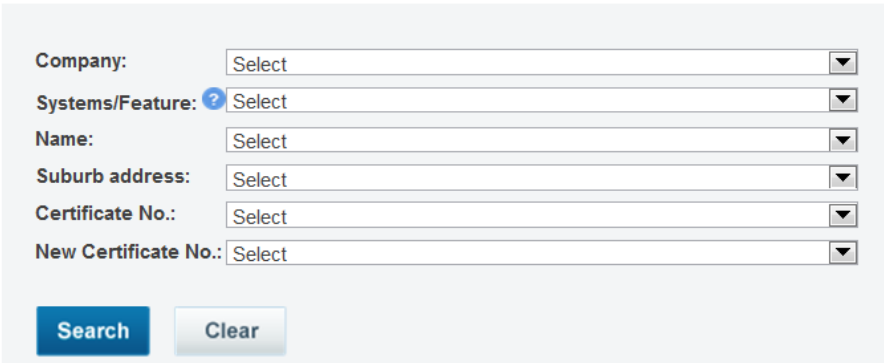

The register will provide information including contact details, expiry date of registration, IQP certificate number and specified systems they are approved for.

We are also working with Hamilton and Wellington councils towards achieving a combined North Island register along with standardising competency requirements and upskilling of the existing IQP's.

Independent Qualified Person register

To find a registered IQP or check the status of an IQP, search by ONE of the company, specified system/feature, name, or certificate no. categories.

You can narrow your search by also selecting a suburb.

The screenshot shows a search form for the Independent Qualified Person register. It contains six dropdown menus for selection: Company, Systems/Feature (with a help icon), Name, Suburb address, Certificate No., and New Certificate No. Below the dropdowns are two buttons: a blue 'Search' button and a light blue 'Clear' button.

Company:	Select
Systems/Feature: ?	Select
Name:	Select
Suburb address:	Select
Certificate No.:	Select
New Certificate No.:	Select
